## *Commonwealth Transportation Board*

Aubrey L. Layne, Jr.  
Chairman

1401 East Broad Street  
Richmond, Virginia 23219

(804) 786-2701  
Fax: (804) 786-2940

*Agenda item #2*

### **RESOLUTION OF THE COMMONWEALTH TRANSPORTATION BOARD**

**June 14, 2016**

**Made By: Ms. Valentine, Seconded By: Mr. Williams  
Action: Motion Carried**

#### **Title: FY 2017 Revenue Sharing Program**

**WHEREAS**, Section 33.2-357 of the *Code of Virginia* prescribes the allocation of state funds by the Commonwealth Transportation Board (Board), from revenues made available by the General Assembly each year, to provide an equivalent matching allocation for certain local funds designated by the governing body for projects addressing improvement, construction, reconstruction, or maintenance of systems of highways; and

**WHEREAS**, section 33.2-357 further stipulates that, "In allocating funds under this section, the Board shall give priority to projects as follows: first, to projects that have previously received an allocation of funds pursuant to this section; second, to projects that (i) meet a transportation need identified in the Statewide Transportation Plan pursuant to § 33.2-353 or (ii) accelerate a project in a locality's capital plan; and third, to projects that address pavement resurfacing and bridge rehabilitation projects where the maintenance needs analysis determines that the infrastructure does not meet the Department's maintenance performance targets"; and

**WHEREAS**, the governing bodies of certain eligible localities electing to participate in this program for FY 2017 have, in concert with the Virginia Department of Transportation (VDOT), identified specific eligible items of work; and

**WHEREAS**, project requests for the FY 2017 program determined to be eligible and in conformance with section 33.2-357 and this Board's Revenue Sharing Program Guidelines (Guidelines) total \$213,278,833 and exceed available funding; and

Resolution of the Commonwealth Transportation Board  
FY 2017 Revenue Sharing Program  
June 14, 2016  
Page Two

**WHEREAS**, the Board has selected projects, set out in Attachment A, for the FY 2017 Revenue Sharing Program in accordance with the priority criteria established in section 33.2-357 of the *Code of Virginia*; and

**WHEREAS**, the Board established the Guidelines as supplementary procedures in distributing and administering Revenue Sharing Program funds; and

**WHEREAS**, pursuant to the Guidelines, if available funding is depleted prior to completely funding all projects within a priority, any remaining funds will be pro-rated within that priority or allocated as otherwise directed by the Board; and

**WHEREAS**, based on available funding for FY 2017, all project requests that have previously received an allocation of revenue sharing funds pursuant to section 33.2-357 will be fully funded; and

**WHEREAS**, pursuant to the Guidelines and based on available funding for FY 2017, locality requests for projects that meet a transportation need in the Statewide Transportation Plan or accelerate a project in a locality's capital plan will receive funding up to the first \$1 million and will receive a pro-rated amount of the remaining available funding for requests over \$1 million; and

**WHEREAS**, pursuant to the Guidelines and based on available funding for FY 2017, localities with requests for pavement resurfacing and bridge rehabilitation projects where the maintenance needs analysis determines that the infrastructure is below the Department's maintenance performance targets and with requests for all other eligible items that do not fall within other priorities will not receive funding; and

**WHEREAS**, it appears that the items of work set out in Attachment A fall within the intent of funding set forth in section 33.2-357 and comply with the Guidelines of the Board for use of such funds.

**NOW, THEREFORE, BE IT RESOLVED**, that the Commonwealth Transportation Board hereby approves the project allocations as set forth in "Attachment A" for funding pursuant to section 33.2-357 of the *Code of Virginia*, totaling \$171,829,404.

####

## CTB Decision Brief

### FY 2017 Revenue Sharing Allocations

**Issue:** Pursuant to § 33.2-357 of the *Code of Virginia (Code)*, the Commonwealth Transportation Board (CTB) may make an equivalent matching allocation from revenues made available by the General Assembly (“revenue sharing allocation”) for improvement, construction, reconstruction, or maintenance of systems of state highways to any locality for designations by the governing body under certain conditions.. VDOT has received requests for project funding/revenue sharing allocations from several localities pursuant to this section of the *Code*. Localities cannot proceed with requested projects until the CTB has approved the allocations. Approval of revenue sharing allocations for specified projects meeting statutory requirements and CTB revenue sharing policy and guidelines (collectively, the Revenue Sharing Program) is sought.

**Facts:** According to the *Code*, the CTB shall allocate no more than \$200 million and no less than \$15 million in each fiscal year under the Revenue Sharing Program. The Revenue Sharing Program allows eligible localities to request up to \$10,000,000 to improve, construct, reconstruct, or maintain the highway systems located within such locality, in another locality or between two or more localities with up to \$5 million for use by a locality for maintenance of the highway systems within the locality(ies).

In allocating funds under § 33.2-357 priority must be given first to projects that have previously received revenue sharing allocations, second, to projects that (i) meet a transportation need identified in the Statewide Transportation Plan or (ii) accelerate a project in the locality’s capital plan, and, third, to those pavement resurfacing and bridge rehabilitation projects where the maintenance needs analysis determines that the infrastructure is below the VDOT’s maintenance performance targets. The CTB’s procedures for administering this Program and distribution of the Revenue Sharing Program funds for FY 2017 are dictated by its policy and the Revenue Sharing Program Guidelines (Guidelines), adopted July 15, 2015.

A total of 91 localities requested to participate in this year’s program, submitting applications for projects initially totaling \$218,423,402. This figure was revised to \$213,278,833 in state matching funds, as projects were reviewed and estimates were updated. All localities that submitted applications for multiple projects prioritized their projects, as required by the Guidelines. VDOT reviewed the applications and found that

- \$92,278,626 in funding requests were for projects that have previously received revenue sharing allocations,
- \$102,632,257 in funding requests were for projects that would meet a transportation need in the Statewide Transportation Plan or would accelerate a project in the locality’s capital plan,
- \$16,563,450 in funding requests were for projects that would address pavement resurfacing and bridge rehabilitation maintenance needs, and
- \$1,804,500 in funding requests were for projects that were eligible but did not meet the funding priority per the *Code*.

Funding for this year's projects is limited to \$171,829,404, which includes revenue sharing funds budgeted for FY2017, funds that were de-allocated by the CTB at its January 2016 meeting and additional funds released by localities since January 2016. Because requests exceed the amount of funding available, requests will be prioritized and pro-rated.

- All funding requests for projects that have previously received revenue sharing allocations are recommended to receive the full amount requested (\$92,278,626).
- The remaining \$79,550,782 is available to fund projects that meet a transportation need in the Statewide Transportation Plan or will accelerate a project in the locality's capital plan. In accordance with CTB revenue sharing policy and Guidelines, these requests will be funded up to the first \$1 million per locality, leaving \$36,902,642 available for requests over \$1 million within this second prioritization tier.
  - VDOT recommends pro-rating the remaining \$36,902,642 in funds at 61.5% among those projects in this second prioritization tier that exceeded \$1 million for any given locality. Localities with multiple projects in this prioritization tier were given the opportunity to select which of their projects were to receive funding available on a pro-rated basis.
- There is no available funding for projects addressing pavement resurfacing and bridge rehabilitation maintenance needs or the otherwise eligible projects that do not meet a funding priority per the *Code*.
- The projects that are recommended to receive funding in this year's program are found in "Attachment A."

**Recommendation:** VDOT recommends that the allocations indicated under the column "FY17 State Match Allocations" be made for these projects identified on "Attachment A."

**Action Required by CTB:** The *Code of Virginia* requires the CTB to make the allocations for revenue sharing funds. A resolution is provided for formal vote.

**Result, if Approved:** The localities will be able to use the allocated funds for projects in accordance with their governing bodies' requests to the CTB. VDOT and the localities will be able to proceed with the projects once they are notified funds are available.

**Options:** Approve, Deny, or Defer.

**Public Comments/Reactions:** None
