**Draft Funding Scenario**

- Step 1** Fund top scoring projects within each district eligible for DGP funds using HPP funds until remaining funds are insufficient to fund the next highest scoring project.
- Step 2** Fund top scoring projects within each district that would have otherwise been funded with available DGP funds, but were not because they are only eligible for HPP funds, using HPP funds, as long as their SMART SCALE cost does not exceed the total amount of DGP funds available to be programmed based on their rank.
- Step 3** Fund projects with a benefit relative to SMART SCALE score greater than an established threshold based on the highest project benefit using HPP funds until funds are insufficient to fund the next unfunded project with the highest project benefit.

*Note: Rows shaded with Red have a companion project that was funded through one of the steps above.*
