MINUTES OF MEETING OF STATE HIGHWAY AND TRANSPORTATION COMMISSION

Richmond, Virginia

February 17, 1977

The monthly meeting of the State Highway and Transportation Commission was held at the Central Highway Office in Richmond. Virginia, on February 17, 1977, at 10 a.m. The Chairman, Mr. John E. Harwood, presided.

Present: Messrs. Harwood, Beeton, Crowe, Fralin, Glass, Hall, Landes and Roos

Absent: Messrs. Hassell, Hooper and Janney

On motion of Mr. Crowe, seconded by Mr. Landes, the minutes of the meeting of January 20, 1977, were approved.

On motion of Mr. Crowe, seconded by Mr. Landes, permits issued from January 20, 1977, to February 16, 1977, inclusive, as shown by records of the Department, were approved.

Motion was made by Mr. Crowe, seconded by Mr. Landes, that cancellation of permits from January 20, 1977, to February 16, 1977, inclusive, as shown by records of the Department, be approved. Motion carried.

The Chairman brought the Commission up to date on the status of I-66 in Fairfax and Arlington Counties. He also informed them of House Bill 1041, which proposes to change the method of distributing funds to the various highway systems.

Mr. Harwood told the Commission of the status of I-595 in Arlington County, which has been held up because of the courts. Upon his suggestion, motion was made by Mr. Beeton, seconded by Mr. Glass, that the Department be authorized to proceed with the project utilizing Interstate funds and doing whatever is necessary to conform to the order of the United States District Court. This requires enlargement of the environmental impact statement and the holding of two more public hearings—one on the location and one on the design. All alternatives will be considered, and the hearings will provide a forum for input by citizens' groups, individuals and the Arlington County government.

Moved by Mr. Crowe, seconded by Mr. Landes, that the Commission confirm letter ballot action on bids received January 19, 1977, on the following projects:

WHEREAS, in conformity with Department policy, an agreement was entered into with the consulting firm of Wiley and Wilson, Incorporated, Lynchburg, Virginia, on June 19, 1973, to conduct a preliminary engineering study and report for the proposed Northwest Expressway, more specifically known as Route 291, Projects 0291-015-103, PE-101; 0291-009-101, PE-101; 0291-118-101, PE-101; 0291-005-101, PE-101, from the vicinity of Route 291 and Route 221 in Campbell County to a connection with Route 29 in the vicinity of Monroe, Amherst County, in the Counties of Campbell, Bedford and Amherst and the City of Lynchburg; and Route 291, Projects 0291-015-103, PE-101; 0291-009-101, PE-101; 0291-118-101, PE-101, from Route 221 to Route 501 and accompanying radial facility from the Expressway Extension to the Blackwater Creek Area, in the Counties of Bedford and Campbell and the City of Lynchburg; and

WHEREAS, the consultant was required to prepare, for submission by the Department, the environmental impact statements. 4(f) statement (if necessary) and/or any other statements regarding the effect of the proposed facilities on the environment as may be required by the Federal Highway Administration's current Policy and Procedure Memorandums and presently existing federal, state or local regulations; and

WHEREAS, the consultant was required to furnish suitable maps, plates, drawings and any other materials and assist the Department in connection with location public hearings held by the Department; and

WHEREAS, with subsequent changes dated August 17, 1973, the compensation for the agreed services was on the basis of cost plus fixed fee, with maximum total compensation not to exceed \$376,815, except as provided in the agreement; and

WHEREAS, the consultants delineated 37 alternate locations for the Northwest Expressway; and

MHEREAS, based on preliminary traffic service and safety, engineering, and social and environmental considerations, the Department concluded that crossing the James River would not provide the best traffic service for the Lynchburg Metropolitan area; and

WHEREAS, the Department gave consideration to a plan for extending the Expressway to Route 501 north and constructing a radial facility to alleviate crosstown traffic; and

WHEREAS, on December 18, 1973, an addendum to the original Memorandum of Agreement was executed to allow the consultant to continue studies for the development of a radial facility to alleviate crosstown traffic and to extend the Expressway to Route 501 north; and

MHEREAS, this addendum resulted in a change of the fixed fee from \$43,490 to \$42,730 and a change in the total estimated cost from \$376,815 to \$373,002; and

WHEREAS, the consultant completed location and preliminary design studies on six transportation plans using one or more of ten possible route locations to serve the future transportation requirements of the Lynchburg area; and

WHEREAS, five of the six transportation plans were presented at a location public hearing in Lynchburg on August 26, 1976, with two informal reviews being held on the evenings of August 24 and 25; and

WHEREAS, because of delays and the additional work requested, the consultant, on June 14, 1976, submitted a request for an increase in the current agreement; and

WHEREAS, 1f granted, this change will increase the current agreement from \$373,002 to \$437,705.96, with the fixed fee remaining at \$42,731; and

WHEREAS, careful consideration has been made of the delays and additional work requested and just compensation for same as established and set forth in the original agreement;

NOW, THEREFORE, BE IT RESOLVED, that the increase requested by the consultant be approved which establishes the maximum total compensation at \$437,706.96, and that the agreement with the consultant be terminated with the work complete through the public hearing.

WHEREAS, in accordance with Department policy, a firm proposal has been received from the consulting firm of Svardrup and Parcel, St. Louis, Missouri, for Stage I (preliminary engineering design, cost estimates and reports) for Route I-664 Offshore Tunnel under the Newport News Channel, Portal Islands and Small Boat Harbor Entrance Modifications. This work is identified as Route I-664, Project 0664-121-102, PE-101, in the City of Newport News; and

WHEREAS, the highly specialized nature of the design work for this type of structure requires augmentation of the Department's design staff by specialized engineers not normally maintained on the Department staff; and

WHEREAS, the consulting firm of Sverdrup and Parcel, who performed the original study for this project, is in the best position to provide the service more expediently and economically than other engineering firms; and

MHEREAS, the total service provided includes an interim report for submittal to the U.S. Army Corps of Engineers for approval of channel depth and width and preparation of a design hearing information pamphlet, graphic display panels and engineering commentary at the public hearing. The scheduled time for completing the final Stage I report is 12 months after notice to proceed. Estimated time to completion of the public hearing is 17½ months after notice to proceed; and

WHEREAS, careful consideration has been made of these required services and just compensation for same as established and set forth in the Memorandum of Agreement;

NOW, THEREFORE, BE IT RESOLVED, that the Commission authorize the execution of a Memorandum of Agreement with Sverdrup and Parcel which establishes a maximum total compensation not to exceed \$490,000, which includes a fixed fee of \$56,000.

Mr. P. B. Coldiron, Director of Engineering, told the Commission of a request from Mr. James A. Brown, Jr., President of Paramont Land Company, Inc., that the limited access features and a connection to Route 23 in Mise County be broken to allow access at two points to land being developed by the company. After some discussion, it was suggested that this be held until the next meeting in order that the matter may be studied in more detail.

Mr. J. M. Wray, Jr., Director of Operations, reported to the Commission on the status of Daily Express, Inc., in regard to permit violations. He recommended to the Commission that this company be taken off surveillance because its record had greatly improved in the last six months. On motion of Mr. Baeton seconded by Mr. Glass, the Commission accepted Mr. Wray's recommendation. Mr. Hamill Jones, attorney for the company, also made brief remarks to the Commission on this subject.

Mr. Roos told the Commission that the Toll Road Committee is continuing to study the Norfolk-Virginia Beach Expressway Study Commission report. They have authorized a contract with the traffic engineers to study the effects of a commuter rate as recommended by the report. The committee, he said, will have several more meetings on the subject before it is in a position to make a recommendation to the Commission.

The next meeting of the Commission will be held in Richmond on March 17, 1977, at 10 a.m.

The meeting was adjourned at 11:15 a.m.
